Welcome to Our World of Sewing Excellence

Our brand GRESTA, which appeals to every product that can be sewn, continues to delight its users with its high quality and practical use.

QUILTING MACHINE

9-A "2.40M – 2.60M " QUILTING MACHINE

GRESTA 9-A Quilting System is a single-head, belt-driven professional quilting machine designed to deliver maximum quality and efficiency in high-precision quilting work. With 2.40-meter and 2.60-meter working width options, it provides high speed, quiet operation, and superior stitch stability for the production of mattresses, quilts, cushions, upholstery, and custom quilting designs.

Developed with Gresta's industrial engineering, the machine's servo-controlled motion system, reinforced belt mechanism, and high-precision needle structure ensure consistent stitch quality even during long periods of operation. Its large pattern memory and automatic design-processing capability allow complex quilting patterns to be executed smoothly and effortlessly.

GRESTA - GR-0303-D4

Motor : 750W Servo Motor
Sewing Speed : 3.000-5.000rpm
Needle System : DPX17
Stitch Length : 0-12mm

GRESTA - GR-0308-D4

Motor : 750W Servo Motor
Sewing Speed : 3.000-5.000rpm
Needle System : DPX17
Stitch Length : 0-12mm

GRESTA - GR-0303-D4 (STEP MOTOR)

Motor : 750W Servo Motor
Sewing Speed : 3.000-5.000rpm
Needle System : DPX17
Stitch Length : 0-12mm

GRESTA - GR-9300-D4

Motor : 750W Servo Motor
Sewing Speed : 3.000-5.000rpm
Needle System : DPX5
Stitch Length : 0-11mm

GRESTA - GR-9400-D4

Motor : 750W Servo Motor
Sewing Speed : 3.000-5.000rpm
Needle System : DPX5
Stitch Length : 0-11mm

GRESTA - 747/757 F-D

Motor : 550W Servo Motor
Sewing Speed : 3500 rpm
Needle System : DPX5

GRESTA - GR5300- 4/5 - UT

Motor : 750W Servo Motor
Sewing Speed : 3500 rpm
Needle System : DPX5

GRESTA - GR-35X25

G TYPE

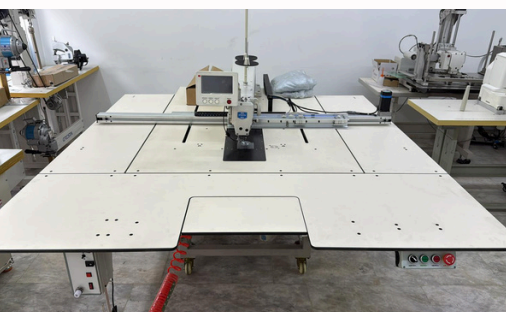

Motor : 750W Servo Motor
Sewing Speed : 5.000 rpm
Needle System : DPX17
Stitch Length : 0-12mm
Also there is Size of 40 X 30

GRESTA - GR-60X40

G TYPE

Motor : 750W Servo Motor
Sewing Speed : 5.000 rpm
Needle System : DPX17
Stitch Length : 0-12mm

INDUSTRIAL SEWING MACHINES

GRESTA GR-8365

Its 43cm long arm design allows for professional use in assembling suitcases, bags, cases, and thick fabrics.

The mechanical body and high-strength components are powered by a 750W servo motor and needle positioning system, providing quiet, controlled, and efficient sewing.

Providing high torque and stable feeding for materials such as thick fabrics, PVC, faux leather, and felt, the machine can be used safely under heavy-duty conditions and offers an ideal solution for luggage and bag production.

IMS Makina – GRESTA offers high-performance sewing systems designed for professional manufacturers. With its robust engineering, durable body structure, and stable production capabilities, it is a reliable solution partner in many industries.

İMS MAKİNA - GRESTA

A Specialist Business

The right investment today determines your success tomorrow. Making a smart choice for your business and machinery will take your business a step further in terms of efficiency, quality, and profitability. The right product and the right investment will save you time, energy, and costs in the long run; a strong infrastructure means strong results.
